---> Comment Text :
I attended the rally and hearing in Las Vegas. It has been 3 wks. since the terrorist attack. THE UNTHINKABLE HAS HAPPENED! America has been attacked on her own soil! PLEASE, PLEASE consider the potential devastation if all the nuclear waste in the country was stored in one place and terrorists found a way to set off an explosion inside of Yucca. Don't say it isn't possible - did we think it possible that what occurred on Sept.11th was possible? There are now many scenarios that are in the realm of possibility now that we know that the unthinkable really can happen in our country. I also believe that we need to focus on this War against terrorism and fighting back at the economic impact it has had rather than continue sinking billions of dollars into Yucca Mountain. Could we please at least get thru this national disaster for now and continue the fight over Yucca Mountain later. I just don't want the whole country to be looking the other way and the DOE to slip this by us like they seem to be doing
